

Marina De La Cruz Hernández

Illustrator | Concept Artist

About Me

My name is Marina de la Cruz, aka Marlock, a Spain-based illustrator focused on storytelling and character-driven worlds.

Although I initially pursued a science degree, I eventually listened to that inner voice and fully committed to my artistic path.

My work is warm, expressive and narrative-driven. I mainly work digitally, using textured brushes to achieve a painterly feel. I love experimenting with new techniques to keep evolving and expanding my artistic range.
